## MARKETING STRATEGY

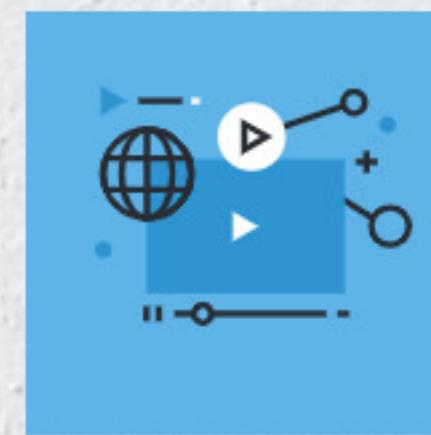

This marketing service includes studying your business in all details, starting with analyzing the identity of the activity, the colors expressed for it, the category of potential customers for it, analyzing the stage at which the activity stands, studying competitors from their locations, their competitive advantage, the market situation and its potential developments, and accordingly we develop a solid plan with recommendations for the business. Help him move to the higher stages

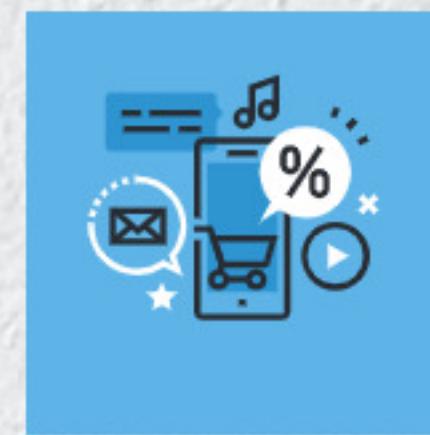

## ADS

Mobile app ads

Make you appear to customers while they are using any of the mobile applications.

Text message ads

Marketing in this way keeps customers informed of all your news through their mobile phone messages; They cannot neglect you or forget your brand.

### Social media ads

It makes you appear to customers wherever they are and you can listen to their needs and work to achieve them. The ads include all social networking sites (Facebook - Instagram - LinkedIn - Twitter - Snapchat - Tik Tok - YouTube), the advertising campaign is done on the appropriate channel for your business based on a study indicates which channel customers use and are on to get the best results from the campaign.

### Email ads

Email marketing is one of the most important methods of marketing in recent times, as it is necessary to use email to register and browse all sites; Your activity information appears among their important messages.

### Google ads

This part of e-marketing includes the appearance of your site in the first ads results of search engines when searches related to the target segment required in the smallest details, where access to the city, neighborhood and street also through the correct targeting, we provide it with a professional team specialized in simulating Google ads.

## SOCIAL MEDIA & E-COMMERCE MANAGEMENT

In this service, we work to grow the pages correctly as a result of sharing content that suits the needs, level, environment and locations of customers, including the keywords used by visitors and configure them in a way that makes the site top in search engines.

## INCREASE REAL FOLLOWERS OF SOCIAL MEDIA ACCOUNTS

For companies, applications, stores and all commercial activities where we increase the number of followers and participants for their accounts.

## SEO & ASO

Work on strengthening and preparing the site to suit the criteria of search engines and appear among the first results that Google displays to customers based on special criteria that suit their needs and include the keywords they use for search and from it increases the number of visits to your site and increases your sales, and the team is working on the application to appear in the first results on Google Play and App Store.

## SWOT ANALYSIS

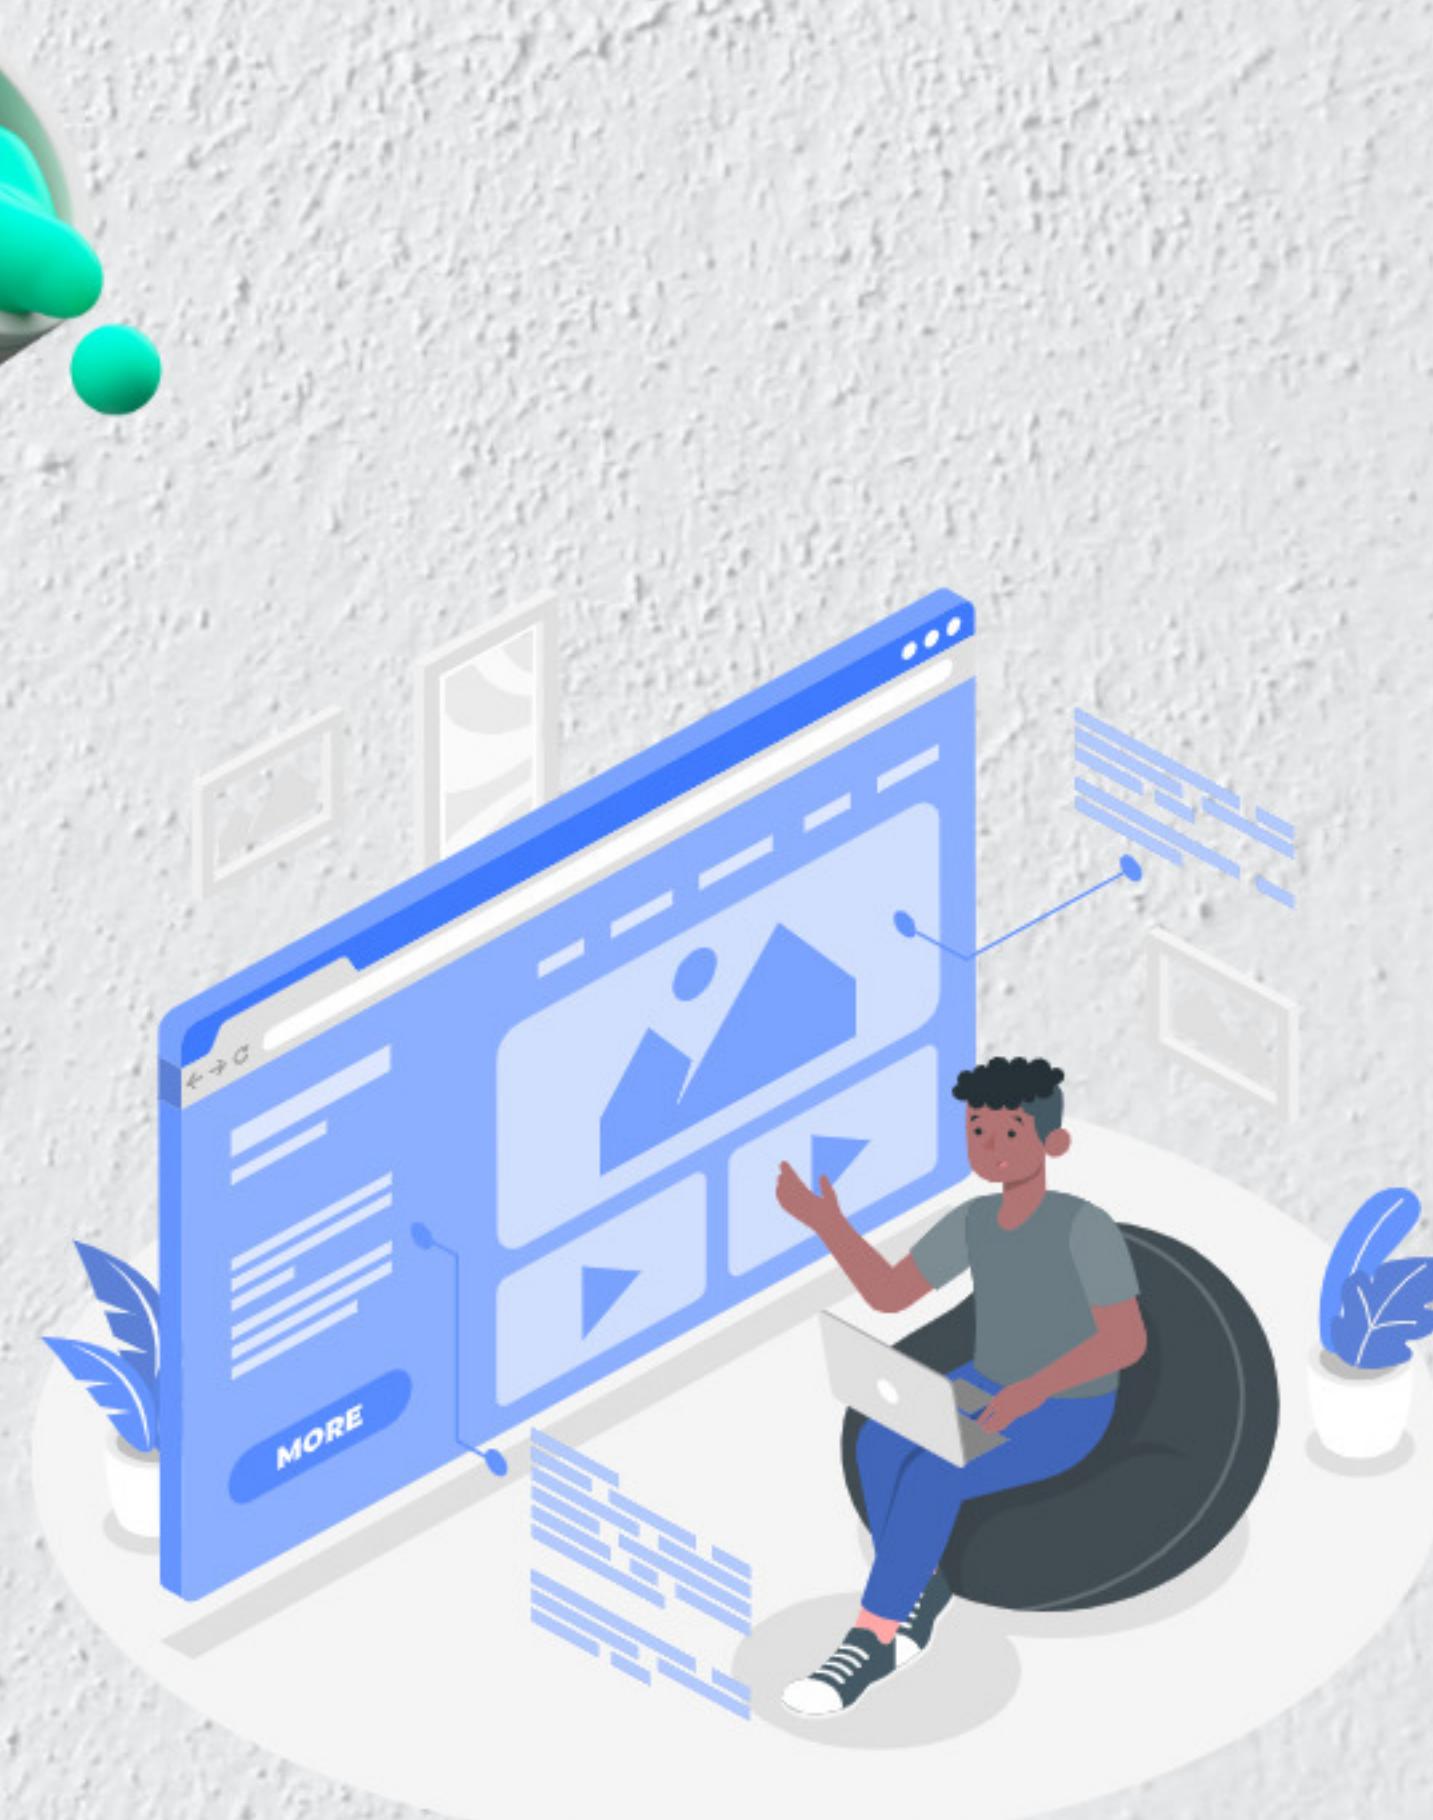

Where analyzing the performance of competitors' pages, their development, the content provided by them, posts, and being fully aware of the strengths and weaknesses of competitors and exploiting them for the growth of your activity.

## BANDING & CORPORATE IDENTITY

What do customers remember when they hear your business/company name? Did you limit yourself to introducing your business/company to the local market? Or did you want your business to have a well-known brand that enables it to spread in wider geographical areas? Introducing your business is the same as introducing your personality/name/idea and so on, can you give up your personal identity? As well as the importance of the commercial identity... We offer you the service of designing the commercial identity, and we discuss with you what is the commercial identity and how to choose its design? Do they have basic elements or are they designed after specifying the name of the activity? What do we offer you in brand identity design? Your identity is your entity, and your image in the minds of your customers. The identity is now an alternative to the name, specialization, and description. Rather, it is one of the most important features that distinguishes the business, and distinguishes you among your competitors.

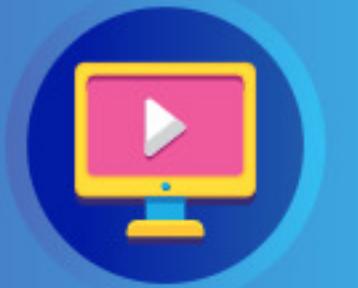

## AFFILIATE MARKETING

Affiliate marketing is a marketing activity in a type of business in which the business owner gives the affiliate marketer/marketers a reward for each visitor or customer who purchases from the employer's website, with the efforts of the personal marketer, to contribute to the rapid spread of your project, so my future technologies company has contracted with influencers and celebrities To market your project on commission.

## MOTION GRAPHIC & DESIGN SOCIAL MEDIA POSTS

We consider at My Future Technologies Company to be one of the best companies that implements promotional images and videos / Motion Graphics videos, where we distinguish and highlight your brand. We make it get the attention it deserves by telling its story and its features to customers by designing a simple, professional Motion Graphics video and publication, Distinguished, with a creative touch, of high quality with a Saudi Motion Graphics company through a professional team that implements ideas, whatever they are, to serve and highlight your brand.
